We Make Medicare Simple

Allsup Medicare Advisor is a Medicare plan selection service. We do not sell Medicare plans. With help from *Allsup Medicare Advisor*, caregivers and their loved ones can make a more informed decision about choosing healthcare coverage.

Understanding which Medicare options could work best can be confusing and frustrating. *Allsup Medicare Advisor* simplifies the Medicare plan selection process by educating your loved one on the choices that are available and identifying the plans that best meet their specific medical and financial needs.

Allsup Medicare Advisor offers three levels of service:

- *Allsup Medicare Advisor* Complete offers research and analysis of all coverage options including traditional Medicare, Medicare Advantage plans and Medicare Part D, with or without Medigap
- *Allsup Medicare Advisor* Medigap and Part D reviews options for Medigap plans in combination with traditional Medicare and Medicare Part D
- *Allsup Medicare Advisor* Part D offers a closer look at Medicare Part D plans

Understanding Medicare Options

Traditional Medicare usually is not costly (Part A for hospital coverage is free; Part B for medical coverage is relatively inexpensive), but coverage can be limited — which is why many people seek out supplemental insurance (Medigap) and prescription drug coverage (Part D), both at an extra cost.

Medicare Advantage plans, at a minimum, cover everything offered by traditional Medicare Parts A and B. Many Medicare Advantage plans also include dental care, hearing and vision screening, and prescription drug coverage, often at a minimal cost.

Medicare Part D (prescription drug coverage) plans are not provided within the traditional Medicare program. There are hundreds of available plans to choose from and

some plans' formularies, or list of covered drugs, are more extensive than others.

Medigap (supplemental insurance) plans cover the gaps in traditional Medicare, usually covering the cost of co-pays, deductibles and other Medicare-related costs.
