

Allsup Medicare Advisor Helps Your Medicare-Eligible Employees Make the Right Choice

A Convenient Solution For Medicare Coverage Transitions

Allsup Medicare Advisor works with employers to ease the transition process for employees moving from group health plan coverage to Medicare. These employee groups include:

- Employees with disabilities receiving Social Security Disability Insurance (SSDI).
- Retirees and workers age 65+ and their spouses.

It can be daunting for individuals to navigate the complex Medicare process without proper guidance. Allsup Medicare Advisor is a personalized service that simplifies the maze of Medicare options available to these individuals, including:

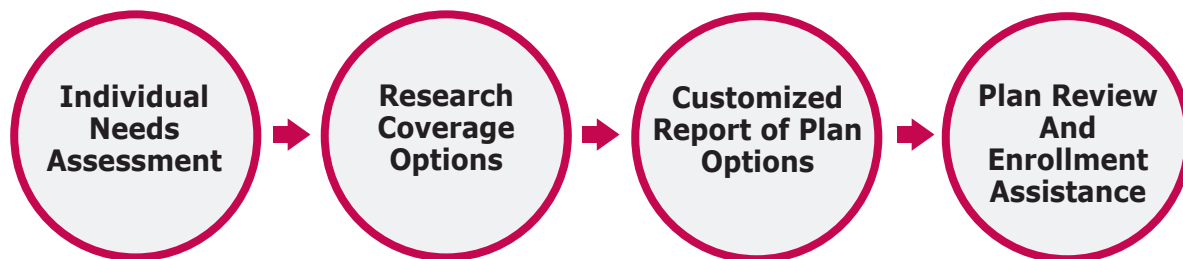

- Original Medicare (Parts A and B).
- Medicare Advantage plans (Part C).
- Prescription drug coverage (Part D).
- Medigap supplemental insurance.

If your organization does not offer or has decided to phase out retiree coverage, consider using Allsup Medicare Advisor to:

- Alleviate the administrative impact of complex insurance transitions for your busy HR department.
- Reduce group health plan costs.
- Ensure participants receive guidance and support to make informed and confident Medicare choices.

How Does Allsup Medicare Advisor Work for Your Employees?

The Allsup Advantage

Allsup has a 30+ year history of successfully coordinating private and public disability and health insurance benefits for hundreds of thousands of individuals and their families, their employers and their insurers. Our goal is to simplify complex government programs and information so your organization and employees can make satisfying decisions that have a positive result.
